

DATA SHEET

WUJING DEPOT

OVERVIEW

SBSS owns and manages the only commercial submarine cable depot in mainland China.

Located with easy access to the East China Sea the Wujing depot has a telecom cable storage capacity of 3,841m³. Telecom cable is stored within 20 cable tanks, 18 of which are custom-bonded. On-site warehouses are available for the safe and covered storage of system plant such as repeaters and branching units.

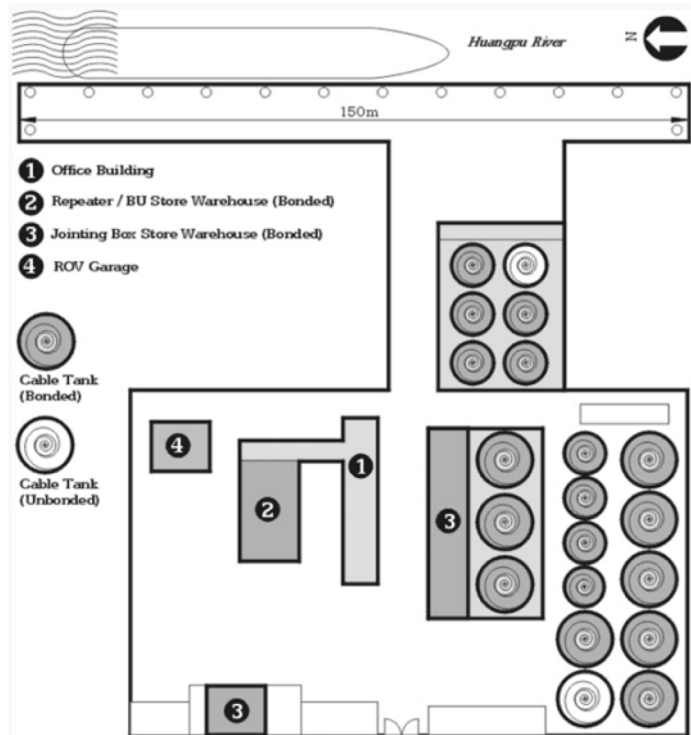

Further storage areas are available for reeled power cables and umbilicals.

Wujing offers SBSS's customers an ideal location to home their valuable spare system cable and plant.

SBSS's cable jointing and ROV pilot training schools are also located within the depot compound.

MAIN DATA

| | |
|---------------------------------------|--|
| Telecom Cable tanks | 20 tanks in total, 18 custom-bonded |
| | 10 x 100m ³ 1 x 256m ³ |
| | 4 x 270m ³ 5 x 301m ³ |
| Total Telecom storage capacity | Cable: 3,841m ³ |
| | Repeater/Branching unit: 246m ³ |
| | Jointing box: 372m ³ |
| Facilities | 1 x 1t cable hauler |
| | 1 x 1.5t cable hauler |
| | 1 x 5t fork lift |
| | Turn sheaves |
| | Cable trackway |
